Super Description Short description MAZ Anime Online is one of the tools on this list that provides you with endless hours of anime series organized by category that you can either watch online or download to your computer. Once you've

---

launched this application you can browse the categories by clicking the small rectangle button located at the left of the screen. Selecting a category will populate the screen with anime series from that specific section. For instance, if you choose the "toon" category, you'll be able to view the anime in that category by clicking the "toon" button located at the left of the screen. More so, selecting an episode from the list won't automatically

---

load it, but will let you choose between viewing or downloading it by selecting a stream or download server from the combo menus. However, doing so is rather based on trial and error, since there's no instruction on what the dropdown menus are for. MAZ Anime Online is a handy application that can help you view 81e310abbf

Product details MAZ Anime Online, one of the tools mentioned above, provides you with endless hours of anime series, organized by category, that you can either watch online or download to your computer if you want to watch them offline. Watch anime from various

---

categories As stated above, this application can help you access a large collection of anime series that are organized by category, so that you don't need to spend a lot of time looking around for your favorite show or discover a new one. Once you launch the application, you'll be able to browse the categories by simply clicking the small rectangle button at the left of the screen. Selecting a category will populate the screen with anime

---

series from that specific section. View or download anime After you've decided on category and series you want to watch, you can select the title from the main window, which will provide you with its brief description as well as a list of episodes. You can bookmark the anime you're currently viewing by clicking the "Add to Bookmarks" button. Handy anime viewer and downloader To sum it up, MAZ Anime Online is a handy

---

application that can help you view anime series or download the shows to your computer and view them later. However, the application's interface is rather crude and can get confusing at times. MAZ Anime Online Version 1.5.0 was released on 2017
