CHOICE OF AUTOSAVE LOCATION
Enjoy hours of intense gameplay on your own! Choose your own autosave locations, such as your home, hotel or just about anywhere.
UNIQUE DEVIL'S CHOICE GAMEPLAY
The Devious Route Battle System uses the standard turn-based card battle format with a few twists: The characters' levels are determined by acquiring points throughout gameplay. A central deck in the game contains cards that can provide the points the player needs. Characters with higher levels get battle cards that can attack enemy characters, provide support for allied units and upgrade stronger cards. The more battles are won, the more chances characters have of obtaining high-level cards for their deck, providing greater flexibility for choice.
OPTIONAL STORYLINE/SUMMER 2015 AREA
In one of the three original game scenarios, the "War in Constellaria" scenario, the counter-attack by the insurgent group "Aosuke" takes the Hunter's manor by storm and escalates into a massive conflict that threatens to engulf several provinces. We wanted our players to decide whether or not to stand against the insurgents after the initial confrontation.
In the second scenario the "Demon Stag Hunt" scenario, the "black hunt" takes place in the Shindou

Mountain region. It is a region many people have nightmares about where demons are known to sometimes appear but very few have ever seen one. After searching for a pack of beasts and losing many members of the Hunter's guild to the "Demon Stags", a group of bandits called the "Blond Bandits" are absorbed into the "Demon Stags".
OPTIONAL NOVELLETS
Collect and experience the tales of the six mercenaries, recently hired by the Hunter's Guild: Liszt Shindou, Jessa, Sakurasaki Hiko, Aosuke Hiroyuki, Abayoma Tanuki, and the mysterious Lilith.
EVENT SYSTEM
Enjoy a brand new rhythm game action experience with the Event System.

<u>What's new in Space Overlords:</u>

I remember when I was in school, everyone had that Pepsi commercial with Kenny Kramer that said something like "Keep it simple…but stylish." Once I got a decent job, I had time and money to actually keep my hair and clothes simple, but there was something about that clip that stayed with me all these years. I just never thought it was more than a catchy pun. I can't think of a career where one's license to be unconventional has been ten times more tightly restricted than a hair stylist. Of course, much of that is due to the fact that hair is most of the focus of our combined attention and consciousness. Before any stylist can afford the top of the line tools, they need to learn how to do what they're going to do properly. If the person teaching them has good training and skills, it might be fine to learn from them how to do certain techniques the right way. But it is not enough to merely learn the proper way to do something; you have to be able to explain why it is that it is the proper way. Some stylists might disagree with this statement, but the vast majority of the pros I have seen do it far better than average stylists I have known. You'd think with all the money and training, a good stylist wouldn't have much trouble figuring out why doing things a particular way is the right way. Heck, I spend a fair amount of time reminding the stylists on-staff here at Hair Potion why what they're doing is in fact the right way. The number one question I consistently get is "can I use XYZ?" That is a strange mantra to have on your menu of what you can do, but unless the substance under discussion is extremely toxic or dangerous and has no technological support whatsoever, it is not something Hair Potion will fight against strongly. That is true across the board… But remember that funny Pepsi commercial? The answer is

usually, "Keep it simple." But hair can be anything you want it to be. The hardest limit is your own imagination and interest in what you want to do. That isn't to say that there aren't rules. There are guidelines for a reason, even if you leave them far behind when you start out, as soon as you are trying new things and growing as a stylist, the weight of the guidelines increases. You can always fall back
